

Local Intelligence

Eastern Election.—At the annual Corporation meeting of Zion Church on Easter Monday, the following officers were elected for the ensuing year.

Senior Warden, George Cozzens.
Junior Warden, Alfred Barker.
Assistant Junior Warden, Cornelius B. Willour.
Vestrymen: 1. Augustus N. Littlefield. 2. Charles P. Barber. 3. Ernest Guffe. 4. James P. Steverson. 5. James Atkinson. 6. James R. Knowles. 7. Samuel T. Melville. 8. William O. Cozzens. 9. William H. Tew. 10. Henry W. Clarke.

Treasurer, Henry W. Cozzens.
Secretary, James Atkinson.

Delegates to Diocesan Convention.—George Cozzens, Alfred Barker, James Atkinson, Cornelius B. Willour.

Substitutes.—Ernest Guffe, Philip Rider, Henry W. Cozzens, Samuel Steverson.

The Concert.—The Social Club had a great success at the Academy of Music last evening. The hall was well filled, and the music of a high order. Should the "Newport boys" decide to visit some of our neighboring towns and assist in driving dull care away, by giving a few concerts among them, we can promise their hearers a good time, and one that they will not soon forget.

The Season.—The prospect for a good season is now much better than it was supposed to be a few weeks since. Applications for cottages are constantly coming in and the indications are plain that Newport is to be as lively and fashionable as ever. Many families who had proposed a trip to Europe have given up the voyage, and are locating themselves in their old quarters down the Avenue and on the Cliff.

Lectures.—We learn that Governor Barnard will make the Atlantic House his headquarters during the coming May session. Arrangements to this effect have been already completed.

Gilmore's Grand Concert.—Our readers must not overlook the advertisement of Gilmore's Grand Concert, which appears in another column. This is probably the best thing of the kind that has visited Newport for a long time.

Losses.—The Providence Insurance Companies lost \$13,500 by the burning of the N. Y. and Erie elevator at Buffalo last Saturday morning. The loss is distributed as follows: Atlantic, \$1000; Mercantile, \$3000; Commercial, \$2500; Gaspee, \$2000; Narragansett, \$3000; Roger Williams, \$2000.

The Narragansett office, had a risk of \$4000 on machinery in Hef's paper mill, Philadelphia, partially destroyed by fire Sunday morning; and the Providence Washington had a risk of \$3128 on stock. Thus far during the present year the losses by fire are as great as before. Rates of insurance will have to go still higher if losses continue to multiply.

Reverend.—The Phoenix says that a portrait containing \$200, was presented to Rev. S. S. Thomas, of the State Street Methodist Episcopal Church in that village at the close of the prayer meeting last week. Mr. Thomas was taken altogether by surprise. Those who know him will say that he was served just right.

Salary Raised.—The Central Congregational church, Fall River at a meeting last Friday evening, voted to add \$500 to the salary of its pastor, Rev. Dr. Thurston, thus raising it to \$2,600.

Warren.—Fifteen persons were confirmed in St. Marks (Episcopal) Church by R. Rev. Bishop Randall on Sunday evening last.

Revival.—There is an extensive revival of religion in Phoenix connected with the labors of the Methodist Episcopal Church.

The Austrian Mission.—Mr. Raymond's nomination as Minister to Austria was laid on the table by a vote of 26 yeas to 8 nays being all Republicans but one, and the Democrats and Johnson Senators all voting in the affirmative. This action the Senate hoped, would result in retaining Mr. Motley, as the nomination of Mr. Raymond goes over until December, but it is understood that the President regards the position as vacant, and that he will withdraw Mr. Raymond's name and immediately make another appointment. The pressure for the return of Mr. Motley has been very decided.

While the South needs all the labor it has, and ere long will be crying for more hands to work her mines and fields, the Freedmen's Bureau is doing a good thing in procuring Northern soldiers for those negroes who have been trained as cooks, waiters and domestic servants. Some fifty colored people are mentioned as having been shipped from Fortress Monroe for Boston, where they have positions awaiting them in hotels, private families, &c. These form one of the best classes of house servants, and are rapidly growing in appreciation at the North, which is generally tyrannized over by domestic despots from over the seas. An exchange of trained servants from the South with sturdy laborers from the North would be productive of practical good to both sections.

The New Hampshire Gold Mines.—Mr. U. C. Knapp has shown the editor of the Littleton Gazette a solid "chunk" of weighing 344 ounces. It was the product of twenty tons of quartz rock taken from the bottom of a shaft twenty-five feet below the surface. The quartz was taken as an average—not selected. It is estimated that this lump is worth \$931.50. This is the richest thing yet produced from these mines, and beyond the slightest doubt that it pays handsomely for working.

Riot in Nevada.—A riot occurred among the workmen of the Silver Bend Mining Company at Belmont, Nevada, on the 18th inst. The mob rode Mr. Canfield, the agent of the company, on a rail, and committed other outrages. A shooting affray also occurred during the riot, in which 30 men were killed. Mr. Canfield escaped unhurt.

Revivals.—A powerful revival of religion has been enjoyed by the Wakefield Baptist Church. Ninety-eight persons have been baptized within the last two months, and the work is still going on. Fifty-six received the right hand of fellowship last Sunday by the Rev. Mr. Frost.

The Jugglers.

"The Japanese jugglers now in Washington paid a visit to the President today, and were received by him with much courtesy, being conducted through the Executive Mansion. The Tyeon of the party made a speech, to which the President replied, and they departed greatly impressed with the Democratic character of American institutions."

Quoth Kay-ay-pop the great Tyeon,
To Kay-ay-pop his man,
"We all must be the Juggler King
Before we can Japan."
All to the White House he doth dwell,
His right hand he doth wave,
And things in circles swing around,
For Veto is his slave.

Up to the White House they did go,
Their pig tails in a line—
Their shaven craniums well japanned
With yellow luster shine.
Ton of the Magi all in row,
Each in his hand doth carry
A peaked little yagato
In case of Hari-Cari!

And when they reached great Andrew's feet
They made a low salaam,
And bowed their heads to the roots
Of the Grand Wizard's sham.
Then in the colorful style
Flat on the floor they went,
And watched our Jugglers rapid tricks,
With wondrous amazement.

First Andrew stood a sober man,
Then he was drunk as Noah,
He spoke a Patriot's thrilling words,
Then gave a Rebels' roar;
Then he was black as the night,
Into the "Vetoed Land,"
Then he was black as the night,
With stern relentless hand—

His mouth on one side "Union," spoke
The other shrieked out "War!"
Then he poured out into our wounds,
And then he tore them raw;
One foot pressed forward firm and well,
The other back and sped;
One hand as white as innocence,
And one with blood was red—

One eye was fixed upon the flag,
Of blue and stripes and stars;
The other gazed with kindling light
Upon the rebel flag;
He shouted "Anarchy and Slavery!"
"Freedom and Reconstruction!"
"God and the Devil, wrong and right!"
"Salvation and destruction!"

He the slave beside him stood,
Shaped like a black of ink,
Too black to whiteen anything,
Too idiot to think;
A page brought in a written scroll,
And quick as any shot
He fired Veto at the boy,
And it was all at hot.

He laughed his rascal surname Sham—
And straight he had four faces,
Each different in their form and looks
And each in diverse places;
One looking northward, heret and grinning,
Another, southward smiled,
One was a man, weak old man,
And one a dream-dread child.

Then Andrew stamped his foot, and the
Four Rebels quaked with fear—
Then waved his pen, and laid in white
And pardoned their appear,
And all the while, his round fat dog
Slept on a velvet rug.
They gazed him "Whiskey boy," because
His shape was like a Jug.

And then upspoke great Kay-ay-pop
To Kay-ay-pop his man,
"We'll better give our Juggling up
And go back to Japan
For we can never equal this
Our ticks and worth—
For 'Merry Andrew' is the King
And his good rascal Sham

Commissioner Newton, in his report of the Agricultural Department for March, says the prospects for wheat crop are generally favorable. The weather has been propitious; snows have prevented winter killing, and the effect of frost following alternate heatings and thawings in the Spring will be less disastrous than usual.

Gen. Sheridan has appointed a colored man, Mr. T. C. Thomas, as one of the registrars of New Orleans. He is a free man, a native of the city, and a most respectable commission broker.

The New York State Legislature, at the session which closed on Saturday night, passed 1,037 bills, the majority of them having been introduced in the Assembly.

Lake Erie is now free of ice, and navigation fairly commenced. Vessels have arrived at Buffalo from Detroit, and at Toledo from Buffalo.

It is said that the Democrats are negotiating for the Boston Voice, to be published as their organ.

The oulting energy of the proprietor of Cunningham's Emporium, Providence, still continues to draw large crowds of customers to his home-furnishing store. Such has been the rush to this popular house during the last few weeks, that it has been found necessary to add several new salesmen to the great number already employed; and with his present efficient corps of clerks, and the addition of two teams to his delivery department, he hopes to be able to give the pressing wants of purchasers immediate and prompt attention. To his previously large stock of goods, there have been immense additions by importation and otherwise of carpeting, furniture, crockery, glassware, crockery, and other household articles, forming altogether one of the most extensive assortments to New England from which to make selections. Notwithstanding the present great rush, there is still room for more to supply themselves with householding goods at the low rates for which this house is much noted. For the accommodation of those who have not ready money the Emporium still continues to loan on the system of weekly and monthly payments.

THAT OF OUR READERS who lack a growth of hair upon the face, or those whose hair is falling out, or have become bald, would do well to try "Dr. Serravallo's Restorative Capillaries." This preparation has been used by thousands in this country and Europe, with the most gratifying results. Testimonials of the most flattering character have been received from the most wealthy and influential citizens of the country, and will be sent free to any one, on application, by Messrs. Berger, Schulte & Co., Chemists, of Troy, N. Y., the only agents in America for sale of the same. Read their advertisement in this paper.

Latest News

NEW YORK ELECTION.
New York, April 21.—An election was held today throughout the State for one hundred and sixty delegates to amend the constitution. The returns are meagre, but they show a general apathy prevalent throughout the State, not more than one-third of the vote being polled. In this city, less than 40,000 votes were cast. Of 20 delegates chosen, 19 are Democrats. The returns indicate that the Republicans have the State on the general ticket. Among the prominent men elected in this city, are James and Erasmus Brooks of the Express, Judge Morrell, Robertson, and Daly, Edwards, Pierpont, and Samuel Tilden. In Brooklyn, the entire Democratic ticket was elected. Henry Ward Beecher was badly defeated.

The Japanese Commissioners who arrived yesterday are stopping at the Metropolitan and today have been visited by large numbers of people. The Chief Commissioner's name is Ono Tomogoro and Interpreter's is Seki Shupatch. They all wear the Japanese uniform.

Commissioner Boggs writes a long letter to the Express to-day, saying, "We are on the verge of a great Indian war, which can be averted by the present urging upon Government the necessity of keeping their reservations intact for them, as they really do not want war, but are being led into it by crafty Sioux." He says if the war is once started it will cost millions of dollars, thousands of lives, and the probable destruction of railroads now building on the Plains.

FROM EUROPE.
PARIS, April 22.—It is reported on very good authority here that the Emperor Napoleon in his preparations for war is engaged in an endeavor to purchase arms in the United States.

The chances are apparently in favor of war on the Luxembourg question.

The neutral great powers have, it is said, proposed a compromise of the difficulty, but Prussia disapproves.

LONDON, April 22, evening.—Peace between France and Prussia is almost despaired of. The Prussians are quietly arming and preparing for the expected shock of arms.

The warlike aspect of things has caused considerable alarm on the London Stock Exchange, and the tendency of affairs is towards a financial panic.

THE CASE AGAINST GEN. WOOL.
In the U. S. Circuit Court for Maryland, sitting at Baltimore, in the case of the suit against Gen. Wool for imprisonment of citizens in Fort Delaware, the Judge charged the jury to acquit the defendant if they found that he acted by order of the President. The statute of last Congress in such cases made and provided was not considered.

FROM WASHINGTON.
WASHINGTON, April 23.

The Post Office Department has received a dispatch stating that the Post Office at Marietta, Va., was robbed last night. This makes the fifth Post Office robbed in that State since the 8th inst.

THE FLOOD ON COLORADO DESERT.
St. Louis, Mo., April 23.—The Denver City News of the 11th of April says that a Government train was recently destroyed on the Colorado Desert and two men drowned by a sudden rain storm, which sent a terrible flood down the narrow gulch in which they were encamped.

CHURCH BURNED IN AUBURN, N. Y.
AUBURN, N. Y., April 23.—The Methodist Episcopal Church in this city was destroyed by fire to-day. Loss about \$25,000; insurance \$6,000.

THE MODEL COOK!
AN AIR TIGHT STOVE
WITH TWO OVENS.
Surpasses all others in Economy, Durability, Perfection of Finish, Capacity, Beauty of Design and Convenience.

Can be used with Water Pipes, or heated to Boil, or with movable flue for fire.

Ventilated Roasting Oven,
Which can be used separately or in connection with the BAKING OVEN.

By removing a single plate, thus giving one of the largest ovens ever constructed.

Is perfectly adapted to those who are not satisfied with their present arrangements for COOKING, to make a careful examination of this STOVE, honestly believing that it combines the elements of simplicity, utility, and economy, more perfectly than any apparatus heretofore introduced. For sale by

Blood's Patent Sifter!
The Pioneer of Sifters!
It Holds the Front Rank.

Its varied and perfect work satisfies it to that position.

It sifts Flour and Meal faster than any other and with perfect cleanliness, nor will it grind up insects or any foreign substances with the Flour.

And yet its greatest superiority is not as a FLOUR SIFTER.

In preparing Cakes, Apples, Pumpkins or Fruit for Pie, Jams or Jellies its value is increased a hundred fold, as it sends the pulp and juices through, and leaves the skins and seeds in the sifter.

All good housekeepers use them.

They are for sale together with a great variety of KITCHEN FURNISHING GOODS at

Housekeeper's Hall.
